**Collaborative Learning Rooms**

Each track will conclude with a Learning Room—an opportunity to reflect, synthesize insights, and connect the dots.

Step into our Collaborative Learning Rooms—dynamic spaces designed for focused peer conversations around key themes emerging from the convening. These small group sessions offer a unique opportunity to:

- Explore specific topics with greater depth
- Exchange tools, resources, and strategies that are working for your peers
- Identify actionable steps to bring innovation and impact back to your agency

Whether you're looking to troubleshoot challenges or amplify successful practices, these rooms foster meaningful dialogue and practical takeaways in an intimate setting.
