### Letter from FHSA President & Executive Director

During the month of July, the FHSA Board of Directors meet in Tampa on the 17th prior to the One Goal Conference. The Board received training to refresh themselves on the important responsibilities and roles of a director and their governing duties to the association. The Board has empowered the Finance committee to further develop a complete Policy and Procedures Manual which will provide the association to board and staff guiding principles secondary to the associations Bylaws. The Bylaws committee presented the Board with streamlining the Bylaws in which the Board approved and amended during this meeting. [Click here](#) for a complete copy of FHSA Bylaws. Below is a brief review of some changes in the Bylaws.

- Revising the friends category to open membership up to include individuals not part of the Directors, Staff or Parent Groups, and are grantees CEO's and board members, individual funders, grantors as well as corporate entities who can contribute to the purpose of the Association and who believe in and support the mission, vision and values of the Florida Head Start Association.
  - Defined quorum majority as 51%.
  - Added language to remove a board member requiring a two-thirds (2/3) majority vote of the Board.
  - Developed processes for elections and nominations to the Board and associations Officers.
  - Removed non-working committees from the Bylaws with the ability to add working groups and task forces at the board description.
- Added section for Executive Director and oversight language.

The Board also approved the association to move forward with establishing its very first office space with the One Ounce Prevention Fund in Tallahassee. This will be a great move and a collaborative approach in advancing the association. The Board also approved an association management group to assist with its strategic planning efforts. Ms. Elizabeth Young, Deputy Director, Child Development & Family Services Division, The Agricultural and Labor Program provided the association with a check for \$831.00 towards the Dollar per Child Campaign.

FHSA Directors Group met the following day with a host of guest speakers. Yasminia Vinci, Executive Director, National Head Start Association, (NHSA) provided a political update from D.C. and the current affairs from a national perspective. She touched upon NHSA strategy and goals to protect funding with an optimistic increase, prevent block granting and keep the field united. For a complete review of her presentation, [click here](#).

Captain Robert Biasas, HS Regional Program Manager Region IV addressed the group on updates regarding the grant process and empowered directors to take an in-depth look at their yearly funding and encouraged them to put their fingers into places where they can receive the most benefit. Line monitoring 2.0 protocols are being put in place to align with the new standards. Captain Biasas also touched upon TA training for your Board and Policy Councils and the importance in keeping them involved. Obesity prevention and the opioid epidemic was also discussed. If you have stories to share about what your centers are doing regarding prevention, now is a great time to be heard.

The Head Start State Collaboration office as on hand to provide an update on the **Infant Toddler retreat** October 10-11 in Orlando as well as the new **Florida Pathway** development tool to assist users with next steps to further their credentialing goals.

We hope to see you all in D.C. in September 25-27 at NHSA Fall Leadership Institute and Spirit Rally. Florida has a goal of 50 parents in attendance at this Rally. We hope to exceed our goal as well as increase our stance as a united front.

Keep doing the great work you are doing,

<b>Louis A. Finney, Jr.</b>	<b>Wanda Minick</b>

#### Florida Early Learning and Developmental Standards Public Input Closing

Over the last few months, the Office of Early Learning, (OEL) has worked with national and state experts to begin revising the 2011 Florida Early Learning and Developmental Standards-- Birth to Kindergarten and the Florida Early Learning and Developmental Standards for Four-Year-Olds (2011). These standards and benchmarks reflect the knowledge and skills that a child on a developmental trajectory (progression) should know and be able to do at the end of the age-related timeframe.

OEL hosted a variety of webinars on the draft proposal and provided opportunities for public input regarding the content of the draft revised standards through rule development workshops.
